

REMARKS/ARGUMENTS

Applicants have amended the specification in order to cure the inconsistency in the original specification between the drawing numbers in the Brief Description of the Drawings and the actual drawings. Perusal of the specification at paragraphs [0128] through [0130] will make clear that all the drawings were actually present at the time of filing and that this amendment does not add new matter.

Claims 1-65 remain pending in the application, and are not amended. The original drawings, on 12 sheets, remain unchanged.

CONCLUSION

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,

David N. Slone
